SUMMARY

BBA + BSc Computer Science student at Wilfrid Laurier University with experience in marketing, digital content creation, and technology-driven projects. Former VP of Technology for a student startup, where I helped develop digital solutions, support product growth, raise over \$1,000, and grow social media presence to 1,000+ followers. Led promotional initiatives for a student-led fintech hackathon, contributed digital media projects for community organizations, and gained customer-facing experience in an automotive dealership environment. Skilled at combining creativity, technical knowledge, and business strategy to drive engagement and deliver results.
